An Assessment and Action Plan
For the California Community Colleges

Presented to
The Board of Governors

Dona Boatright
Linda Collins

January 11, 2005
With Thanks To...

- Board of Governors - California Community Colleges
- Chancellor’s Office - California Community Colleges
- David and Lucile Packard Foundation
- Foothill-De Anza Career Ladders/Help Desk Project
- Foundation for California Community Colleges
- James Irvine Foundation
- Walter and Elise Haas Fund
- William and Flora Hewlett Foundation
Advisory Board

Patrick Ainsworth, CA Dept. of Education
Lande Ajose, James Irvine Foundation
Dona Boatright, CCC Chancellor’s Office
Liz Campos, CA Fed of Labor (AFL-CIO)
Yvonne Carrasco, Program Specialist
David Gruber, Gruber-Pereira Assoc.
Lance T. Izumi, BOG-CCC
Mary Pat Huxley, CCC-EWD-Biotech
Martha Kanter, Foothill-De Anza CCD
Fran Kennedy, EDD
Corey Kidwell, Bay ITC
Julie Korenstein, BOG-CCC
Stephen Levy, Center for Continuing Study of the California Economy

Mark Wade Lieu, Academic Senate-CCC
Paige Lloyd, Genentech
Patrick McKay, Genentech
Will Mollard, One EPA, Hewlett Foundation
Victoria Morrow, Skyline College
Brian Murphy, De Anza College
Kim Perry, CCAOE, Reedley College
Marlene Ruiz, Kaiser Permanente
Sondra Saterfield, BOG-CCC
Abby Snay, Jewish Vocational Services
Ken Sorey, Just for the Kids, California
Regina Stanback-Stroud, Skyline College
Leslie Wang, BOG-CCC
Partnerships

- Business & Industry Partnerships: highest rated key dimension
- External partners report positive relationships and effective outcomes from partnerships with colleges
- Diversity and range of scale of partnerships

As busy as we are, I think that the time you spend working with the colleges is well worth it. It just pays off. I would encourage everyone to put the time in, that it will reap good rewards and good employees in the future. Hospital Prog. Coordinator

Community Colleges have been really responsive to our needs and the needs of the employers in our community. WIB Staff
Business & Industry Partnerships

Issues for business partners include:

- Needed links to 4-yr inst. or advanced training
- College budget cuts

It needs to be more seamless for them to be able to get credit for what they have done at the community college level, get … transitioned into the four year school … then again to the master’s program. It is very difficult and very cumbersome. Many students can’t afford to wait and … they end up not being able to go through that continuum. Chief Nursing Officer

Working with staff at the college has been easy, but it is not easy to launch or run programs in times of little funding. Head of Rural Services
WIB Partnerships

Strong practices include:

- Leveraging dollars across systems
- Learning more about how the other organization works
- Staff with experience in both settings
- Working with each partner’s strengths, skills and resources

There's so many different funding silos … that it's hard to connect the funding streams to make sure that we have a coherent and an effective employment development process in our local community. WIB Staff
MODELS
INTRODUCTION TO BIO SCIENCE (Employability, Life Skills, Ergonomics)

CONTEXTUALIZED BIO SCIENCE LITERACY/VESL TRAINING (100-150 hours)

BIO PROCESS/ASSISTANT MEDIA PREP/PHARMACEUTICAL MATERIALS SPECIALIST TRAINING (Biological Sciences, Physical Sciences, Engineering) (300 hours)

1-3 MONTHS WORK EXPERIENCE

ASSISTANT MEDIA PREP 32K – 35K + Benefits

BIO PROCESS MANUFACTURING TECHNICIAN 35k – 40k + Benefits

PHARMACEUTICAL MATERIALS SPECIALIST/TECHNICIAN 32K – 35K + Benefits

QUALITY CONTROL (QC) ANALYST TECHNICIAN 35k – 40k + Benefits

RESEARCH ASSISTANT 60k +
THE CALIFORNIA COLLEGE AND CAREER PATHWAY PILOT PROGRAM

**COLLEGE AND CAREER PROGRAMS**
Degree and Certificate Programs at community colleges leading to careers in health care, social services, IT, etc.

**BIOTECHNOLOGY**
Manufacturing Technician: 35K
14 week training plus 3 month paid tryout employment

**HEALTH**
Technician: 30-40K
Short to mid term training (to be developed)

**CONSTRUCTION**
(to be developed)

**BRIDGE TO COLLEGE AND CAREER**
12 to 14 Week Program: Learning Community Cohort Model
- Delivered for college credit at College or outlying site (CBO; other)
- Introduction to Post Secondary Education and Career Opportunities
- Contextualized Literacy and Math Skills
- Work Readiness
- Social Support
- VESL (as needed)
- Individualized Education and Career Plan
- Achievement of 10th Grade Reading Level
- Transition to Customized Career Training/College
- Financial Planning
- Corporate Culture
- Counseling

**OUTREACH, RECRUITMENT AND ASSESSMENT**
TARGET GROUP: Disadvantaged Youth/Transiting Foster Care Youth/Disadvantaged Adults
TARGET AREAS: Selected Cities/Counties and Service Areas
SERVICES: Career Orientation/Test of Adult Basic Education (TABE) Testing/Career Counseling/Referrals/Job Development

**SHORTTERM WORK READINESS**
Part-time Jobs: after-school workers, IT or retail staff ($7.50 to $9.50 per hour) + full financial aid package

**STAGE 1**
TABE Under 6/7th Grade

**STAGE 2**
TABE 7/8th – 10th Grade

**STAGE 3**
TABE 10 + Grade

RECOMMENDATIONS & NEXT STEPS

- California Community College System
- California Workforce System
- Foundations and Grants
We don’t have anyone to train us to navigate the WIA system... it is hard to connect the dots without a roadmap. Dean, Economic Development

The community college system could facilitate more communication across the system. They could offer more workshops, conferences or venues ... to share best practices with one another. Dean, Vocational Education

CCC Sys: Strategic Assistance

Develop/Provide Focused CL Strategic Assistance

- Disseminate models, practices, tools
- Develop technical resources
- Utilize team approach: college practitioners, expert intermediaries, local workforce board leaders
- Focus on partnerships & navigation of WIA system
CCC Sys: Demonstration Projects

Support, Develop & Evaluate Demonstration Projects

- Leverage funding across CC/WIA systems
- Create bridges to and/or focus on high wage/high growth careers
- Incorporate learning communities, cohort approaches

The program targets the real hard core disadvantaged youth and adults from the Southeast neighborhoods. We are giving them an opportunity to get oriented to the field of biotech by providing basic skills courses to help them succeed in this area, some support services, and a bit of career development orientation and training.

Chancellor
CCC Sys: Integrate Into Programs & $ Streams

Link/Integrate CL Into Relevant Programs & Funding Streams

- EWD, VTEA, Tech Prep
- Matriculation, CalWORKs, EOP&S
- Financial Aid

The issue is, are we funding the community colleges and are we funding the local workforce investment areas to do the collaboration work and to do the resource development activities that would really serve those that we're all mandated to serve? WIB Staff
CCC Sys: Seed Funding for All

Provide CL Seed/Base Funding To all Colleges

- Support partnership development
- Expand career ladders capacity
- Further program/curriculum design, development and integration
- Address integration of services/instruction

Licenses and certifications are a California state requirement. How folks get themselves up to speed and stay current has got to be a nightmare for some of these agencies and for their employees, because we can’t send them all to [our college]. There just aren’t enough programs. **Director, Water District**
Support CL Related Student Services

- Counseling, Career Services
- CalWORKS

Address Barriers To CL Enrollment

Our students are dealing with so many life issues and when they come [here] they literally have to learn a whole new way of life. The limit on financial aid, the limits on support that they can get if they come in through CALWORKS, the lack of support for health benefits and even the lack of support for additional support services .. are all huge things that impact our students. **Academic Senate President**

Short-term training programs don’t really meet the long-term needs of many of the people we serve. [Local] self-sufficiency requires $19.00 per hour. Few short-term training programs create that opportunity. **WIB Staff**
Continue to Streamline System Processes

- Curriculum and program approval
- Grant application and tracking

Flexibility is key if community colleges are expected to respond quickly to emerging needs. There could be a more streamlined certificate approval process that also recognizes that some programs will not be here for time immemorial, but that they may be let go when the need is served.

President

I think there could be ways to speed up the curriculum approval process. … It took me 2 ½ years to get [the program] off the ground. Occupational Dean
WF Sys: WIA Discretionary $
WF Sys: Local WF Priorities

Refocus Local Workforce Priorities

- Longer term, post secondary education/training
- Career ladders and bridges to careers/college
- Partnership development with colleges

We need 24 month training programs instead of 12 month training programs. We want to create an opportunity that is a real career ladder. From a public policy perspective, a higher return comes from longer training programs. **Chancellor**

We need less WIB focus on short-term training programs… [Our] College is not interested in short-term programs for dead end jobs. **Dean of Workforce Development**
Workforce Sys: ETP

Collaborate with ETP to develop & expand CL programs

- Promote successful model collaborations
- Jointly address barriers to college participation
- Advertise and extend appropriate waiver processes (minimum salary requirements, removal of cap on literacy skills training time)

To maximize the benefits of ETP’s CL program and the results of this evaluation, ETP may consider developing collaborative relationships with other career ladder initiatives in California . . . [including] the California Community Colleges Career Ladders Project. The Supporting Role of CA ETP in the Career Ladders Program, Final Report, Sept. 2004. p. 54.
Foundations and Grants

Engage foundation community to develop and promote career ladders

- Seek collaboration on priorities (RFA development, matching funds, etc.)
- Enhance college competitiveness for grant applications
- Develop private/public partnerships that leverage funds, model collaboration and extend demonstration projects

Pursue state and national funding resources for CL

- Secure more grants for system & for colleges
- Enhance college competitiveness for federal & national grants
Thank you

Special Thanks to Los Medanos College
